

UDrive sahi tareeqe se chalayein

Is portal ki har screen ke liye 39 hisse. Yehi guide har page par upar dayein “Guide” button ke peeche bhi mojud hai, taake apna kaam chhore baghair dekh sakein. Portal angrezi mein hai; guide Roman Urdu mein — upar se English par badal sakte hain.

Rozana ka kaam, isi tarteeb mein

Log in karne ke baad in screens ko isi tarteeb se khali karein. Upar wali cheez hamesha neeche wali se pehle.

- 1 Safety incidents**
Sab se pehle. Koi bhi SOS ya incident khula hai to baqi sab rok kar pehle us par baat karein.
- 2 Overview**
Din ka naqsha. Jo number zero hona chahiye aur zero nahi hai, wohi aaj ka kaam hai.
- 3 Verification**
Naye driver aur gaari. Jab tak approve na ho, driver ek rupya nahi kama sakta — isay latakna mat.
- 4 Driver top-ups**
Paisa aa gaya hai to balance credit karein. Balance khatam ho to driver online to dikhta hai magar usay requests milna band ho jati hain.
- 5 Ride requests**
Zero offers wali requests dekhein. Ek hi ilaqe mein baar baar zero ka matlab rate ya driver ki kami hai.
- 6 Operations & dispatch**
Chalti hui trips. Sab se purani bina harkat wali trip sab se zyada mushkil mein hoti hai.
- 7 Complaints & disputes**
Shikayat ka jawab usi din. Agle din tak rakhi hui shikayat do shikayatein ban jati hai.
- 8 Support tickets**
Baqi sab sawal. Booking ya user pehle dhoondein, phir ticket kholein.
- 9 Finance & settlements**
Payout purane se naye ki tarteeb mein. Refund se pehle booking milaein.

Start here

Portal kya hai, ek ride kis raste se guzarti hai, aur woh usool jo har screen par lagte hain.

How a ride actually flows

Ek ride ka poora safar, taake pata ho kaunsa marhala kis screen ka kaam hai.

1. Customer pickup aur destination set karta hai, gaari chunta hai, aur apna fare likhta hai. Is se ride request banti hai — Ride requests mein nazar aati hai.
2. Aas paas ke driver usay dekhte hain aur apna fare bhejte hain. Har jawab ek driver offer hai.
3. Customer ek offer qubool karta hai. Wahan booking ban jati hai aur driver assign ho jata hai — Bookings mein nazar aati hai.
4. Driver pickup par pohanchta hai, customer se trip OTP leta hai, aur trip shuru karta hai. Progress Operations & dispatch aur Live tracking mein hoti hai.
5. Trip mukammal hoti hai, paisa Finance mein settle hota hai, aur dono taraf rating de sakti hai.

! Ride request aur booking ek cheez nahi. Request cancel karne ka koi nuqsan nahi; booking cancel karna us driver par lagta hai jo shayad chal bhi chuka ho.

! Fare customer likhta hai aur driver jawab deta hai. Admin sirf woh rate set karta hai jis se pehla number banta hai — kisi ek ride ki aakhri qeemat kabhi nahi.

How this menu is arranged

Bayein taraf ka menu saat hisson mein hai, aur tarteeb rozana ke kaam ke mutabiq hai.

1. DAILY OPERATIONS — rozana ka kaam. Log in karne ke baad ka pehla hissa yahi hai.
2. PEOPLE & FLEET — driver, customer aur gaariyan. Zaroorat par khulta hai, har roz nahi.
3. TOURISM — package, destination, hotel, route aur road advisories.
4. PRICING & MONEY — rate, zone, petrol, route insights, finance.
5. TRUST & SAFETY — SOS, shikayat, support ticket.
6. REPORTS — hisaab aur record. SETUP — settings jo ek baar set hoti hain aur phir chalti rehti hain.

! Har group par click kar ke usay band kiya ja sakta hai. Jo band karein ge woh agli baar bhi band milega, isi browser mein.

Roles and what each can do

Portal role ke hisab se rokta hai. Apna role maloom ho to band button par waqt zaya nahi hota.

1. SuperAdmin — sab kuch, delete aur commission rules samet.
2. Admin — har operational kaam: verification, pricing, disputes, refund.
3. Manager — rozana dispatch aur booking, aur verification. Support tickets Manager ke pas nahi hain.
4. Operations — dispatch, booking, support tickets aur verification.
5. FinanceOfficer — payout, refund aur pricing rates. Reconcile aur commission rules sirf SuperAdmin ke pas hain.
6. SupportAgent — ticket aur maloomat. Paisa nahi, verification nahi — magar booking ka status yeh bhee badal sakta hai.
7. VerificationOfficer, SafetyOfficer aur TourismManager bhee portal mein aa sakte hain, apne apne hisse ke ikhtiyar ke sath.

! Button dabane par kuch na ho to aksar matlab yeh hai ke aap ka role yeh kaam nahi kar sakta, portal kharab nahi hua. Dobra koshish karne ke bajaye upar wale role se kahein.

DAILY OPERATIONS

Woh saat screens jo har roz kholni hain, usi tarteeb mein jis tarteeb se kaam karna hai.

Overview

Ek nazar mein poora din, aur woh cheezein jo kisi ka intezaar kar rahi hain.

1. Sab se pehle upar wale numbers parhein — chalti hui trips, pending verification, khuli hui disputes.
2. Jo number zero hona chahiye aur zero nahi hai, wohi aaj ki qatar hai.
3. Kuch karne se pehle poora record kholein. Sirf dashboard ke number par kabhi faisla na karein.

Ride requests

Woh customer jo ride maang rahe hain magar abhi tak koi driver nahi mila.

1. Offers ka number dekhein. Zero par khari request ka matlab hai kisi driver ne yeh fare nahi liya.
2. Ek hi ilaqe mein baar baar zero offers ka matlab aksar yeh hota hai ke wahan ka per-km rate kam hai, ya koi driver online nahi. Kharabi samajhne se pehle Pricing aur online driver count dekhein.
3. Requests khud khatam ho jati hain. Inhein saaf karne ki zaroorat nahi.
4. Agar ek hi route par mahine bhar yeh masla rahe to Route insights kholein — wahan yeh number route ke hisab se jama hota hai.

Bookings

Woh rides jinhein driver mil chuka hai. Trip ka asal record yahi hai.

1. Booking reference, customer ka naam ya phone number se dhoondein.
2. Booking khol kar fare, driver, gaari aur poori status history dekhein.
3. Status history hi sach hai — kya hua aur kab hua. Dispute mein kisi ki baat mannay se pehle yeh parhein.

! Yahan cancel karna ek asli driver par lagta hai jo shayad raste mein ho. Wajah zaroor likhein.

Operations & dispatch

Chalti hui trips ka desk.

1. Aakhri harkat ke hisab se tarteeb lagayein. Sab se purani bina harkat wali trip sab se zyada mushkil mein hoti hai.
2. DriverEnRoute par atki hui trip jiska GPS kai minute se band hai — usay status badalne ki nahi, phone call ki zaroorat hai.
3. Status haath se sirf tab badlein jab kisi se baat ho chuki ho aur asli soorat-e-haal maloom ho.

! Zabardasti status badalna masla chhupata hai, theek nahi karta. Driver app wohi bhejti rahegi jo usay nazar aa raha hai.

Live tracking

Is waqt gaariyan kahan hain.

1. Purane marker ka matlab hai driver app ne bhejna band kar diya — aksar signal, kabhi app band.
2. "Meri ride kahan hai" wali calls ka jawab isi se dein, driver ko chalte hue phone kiye baghair.

Verification

Driver aur gaari ki manzoori. Portal ki sab se bhaari zimmedari wali screen.

1. Submission khol kar har document banday se milaein: CNIC, licence, registration.
2. Dekhein ke licence ki tareekh guzri hui na ho aur naam CNIC se milta ho.
3. Gaari ki registration gaari ki tasweeron se milaein.
4. Approve karein, ya aisi wajah ke sath reject karein jis par driver amal kar sake.

- ! Ek approval ka matlab hai ek ajnabi customer ke sath gaari mein baitha hai. Sahi darkhwast reject karne se driver ka ek din jata hai; ghalat darkhwast approve karne se kisi ka bohot zyada.
- ! Bina wajah ke "Rejected" faisla nahi, deewar hai. Likhein ke kya theek karna hai.
- ! Driver kisi customer ke map par tab tak nahi aata jab tak driver Approved aur gaari Verified dono na hon.
- ! Approve karne ka ikhtiyar paanch roles ke pas hai — SuperAdmin, Admin, Manager, Operations aur VerificationOfficer. Yeh sirf do bando ka kaam nahi, is liye tay karein ke aap ki team mein yeh kaun karta hai.

Driver top-ups

Driver ke commission balance mein paisa daalne se pehle tasdeeq ke paisa waqai aaya hai.

1. Driver ka bheja hua reference apne bank ya easypaisa record se milaein.
2. Milne par approve karein — balance usi waqt driver ke account mein chala jata hai.
3. Na milne par reject karein aur wajah likhein, taake driver sahi reference dobara bhej sake.

- ! Approve karna paisa dena hai. Bina record dekhe kabhi approve na karein.
- ! Balance kam se kam hadd se neeche jate hi driver ko nayi requests milna band ho jati hain — woh online to dikhta rehta hai, bas usay kuch bheja nahi jata. Chalti hui trip par koi asar nahi. Is liye yeh qatar rozana khali karein.

PEOPLE & FLEET

Kaun chala sakta hai, aur kis cheez mein.

Drivers

Driver ki fehrist, unka maqam aur unki history.

1. Shikayat ya support call ke waqt driver dhoondne ke liye istemal karein.
2. Suspension driver ko foran offline kar deti hai aur nayi requests rok deti hai.

! Suspension warning nahi hai. Yeh us din ki kamai cheen leti hai. Safety ke ilawa har cheez ke liye disputes ka raasta istemal karein.

Customers

Customer ke accounts aur portal ke staff accounts.

1. Staff account hamesha us sab se chhote role par banayein jis se uska kaam ho jaye.
2. Koi banda chhor de to usi din access khatam karein, mahine ke aakhir mein nahi.

Vehicles

Poora fleet, aur woh tasweerein jo customer gaari chunte waqt dekhta hai.

1. Har category ke liye ek saaf tasweer lagayein: Car, Bike, Coster, Hiace.
2. Charon ka andaz ek jaisa rakhein — ek hi rukh, ek hi background — warna picker alag alag apps se jurra hua lagta hai.
3. Jis category ki tasweer nahi hogi, app mein uski jagah saada icon aa jata hai.

! Customer gaari ka andaza isi tasweer se lagata hai. Andheri ya kati hui tasweer achi gaari ko buri dikhati hai.

TOURISM

Woh sab jo Explore mein nazar aata hai, aur woh log jo usay bhejte hain.

Tour packages

Driver ki taraf se pesh kiye gaye kai din ke tour.

1. Live hone se pehle package dekhein: route, seats, qeemat, aur kya kya شامل hai.
2. Tour ki qeemat har driver apni gaari par khud rakhta hai, yahan se nahi.

Destinations

Explore mein dikhaye jane wale sayahati maqamat.

1. Tasweerein mausam ke mutabiq rakhein. Ghalat mausam ki tasweer ghalat umeed paida karti hai.
2. Har maqam ka naam wohi likhein jo log bolte hain, warna search mein nahi milega.

Hotels & approvals

Hotel ki listing aur woh malikan jo darkhwast bhejte hain.

1. Approve karne se pehle pata, phone number aur tasweerein dekhein.
2. Phone number par ek baar call kar lena sab se sasta check hai.

Routes

Naam wale route jo tour aur Coster service ke liye istemal hote hain.

1. Agar route seat ke hisab se bikta hai to Pricing mein uska fixed per-seat fare bhi hona chahiye.

Road advisories

Driver aur customer dono ko dikhai jane wali warnings.

1. Road band hone ya land sliding ki tasdeeq hote hi foran lagayein.
2. Khulte hi hata dein. Purani advisory logon ko sikha deti hai ke koi bhi advisory na parhein.

Marketplace console

Alag console jahan tour operator apne package aur seats sambhalte hain. Yeh admin menu ka hissa nahi.

1. Iska apna login hai. Admin yahan sirf tab jata hai jab kisi operator ki madad karni ho.
2. Jo package yahan se aate hain unki manzoori Tour packages mein hoti hai.

PRICING & MONEY

Ek ride ki qeemat kaise banti hai, aur paisa kahan jata hai.

Pricing & fares

Har gaari ka per-km rate aur minimum fare, aur us se tang qawaid.

1. Upar wale grid mein har gaari ke liye do number rakhein: rate per km aur minimum fare. Yeh grid sirf City service ka hai.
2. Base fare aur per-minute rate grid mein nahi hain — woh neeche "Pricing rules" ke andr har rule par set hote hain.
3. Hisab yeh hai: $\text{base fare} + (\text{per km} \times \text{petrol index} \times \text{road distance}) + (\text{per minute} \times \text{waqt}) = \text{meter}$. Phir zone ka difficulty factor poore meter par lagta hai, aur zone ka return share distance wale hisse ka ek tukra isi difficulty ke sath jama karta hai. Aakhir mein natija minimum fare se neeche nahi jata — aur woh minimum bhi usi petrol index aur usi zone factor se barhta hai.
4. Kisi tang cheez ke liye — weekend ka rate, ek shehar ka rate — neeche rule banayein jismein din aur ilaqa likha ho.
5. Fare preview se dekhein ke kaunsa rule lagta hai aur meter kya banta hai.

- ! Rate per km aur minimum fare alag number hain. Minimum fare (maslan 1,600) ko per-km wale khane mein daalne se 12 km ka safar unees hazaar ka ban jata hai.
- ! Sab se makhsos active rule jeetta hai: ilaqa har jagah se upar, chhota ilaqa bare ilaqe se upar, aur likhe hue din har din se upar.
- ! Tourism ki qeemat yahan nahi banti. Har driver apna tour rate Driver app mein khud rakhta hai.
- ! Coster ke per-seat route fixed route fare par chalte hain, jo isi screen par set hota hai. Aise route par customer bid kar hi nahi sakta, aur us fare par na minimum lagta hai na petrol index.
- ! Fare preview sirf meter dikhata hai — us mein zone ka factor, return share, petrol index aur surge shamil nahi. Customer ka asal quote is se upar ho sakta hai, is liye isay aakhri qeemat na samjhein.

Fare zones

Ilage ke hisab se sakhti — pahari raasta, kharab sarak, aur khali wapsi ka kharcha.

1. Zone kholein aur uske andar aane wale ilage daalein: har ilaga ek point aur us ke gird kilometre ka dair hai.
2. Difficulty factor poore fare ko barhata hai. Return share sirf distance wale hisse par lagta hai — yeh us wapsi ka kharcha hai jo khali aani hai.
3. Screen par mojud effective multiplier dekhein: yeh dono factor mila kar asal asar dikhata hai, ek lambe (100 km) safar ke namoone par. Dono alag alag maamooli lagte hain — 1.30 difficulty aur 0.55 return share mil kar taqreeban do guna ban jate hain.
4. Chhote shehri safar par yeh multiplier kam hota hai, kyunke waqt aur base fare wale hisse par return share nahi lagta.
5. Naya zone banane ke baad usay inactive rakhein aur isi screen ka multiplier parh kar faisla karein. Pricing ka Fare preview zone ka asar nahi dikhata, is liye us se zone ki janch na karein.

! Saat Kashmir zones pehle se mojud hain magar band hain, aur unke coordinates taqreeban hain. Active karne se pehle har ilage ka point map par milaein.

! Active months sirf un maheenon mein zone chalata hai. Barfani raaston ke liye yeh sardi tak mehdood rakhna behtar hai.

Fuel prices

Petrol aur diesel ki rozana qeemat, taake rate card apne aap pump ke sath chale.

1. Baseline woh qeemat hai jis par aap ka rate card durust tha. Jab tak baseline zero hai, petrol ka asar bilkul band hai.
2. Pehle aaj ki pump price record karein — jab tak ek qeemat mojud na ho, "Set to today's prices" wala button screen par aata hi nahi.
3. Phir "Set to today's prices" dabayein — is se indexing chalu hoti hai aur aaj ka fare bilkul wohi rehta hai jo kal tha.
4. Uske baad jab bhi OGRA qeemat badle, nayi qeemat record kar dein. Distance wala hissa khud us nisbat se hil jata hai.
5. Ek hi din dobara daalna usay theek karta hai, dusri entry nahi banata. Aane wali tareekh usi din se lagti hai.

! Baseline barhane se distance wala hissa aur minimum fare kam ho jate hain, kam karne se barh jate hain. Base fare aur per-minute wala hissa bilkul nahi hilti, aur fixed per-seat route fare par petrol ka koi asar nahi.

! Asar $0.85\times$ se $1.25\times$ ke darmiyan mehdood hai (yeh hadd Settings mein badli ja sakti hai), taake ek ghalat entry poore platform ki qeemat na badal de.

Route insights

Kis route par asal mein kitne ka soda hota hai, aur platform kitna bata raha hai.

1. Median agreed fare aur median suggested fare ka farq dekhein. Bara farq matlab suggestion ghalat jagah khari hai.
2. "No offer rate" asal ishara hai. Jis route par aadhi requests ko koi driver jawab hi nahi deta, wahan fare itna kam hai ke driver uthna nahi chahta.
3. Tabdeeli Pricing ya Fare zones mein karein — yeh screen sirf batati hai, badalti nahi.

! Kam rides wale route ka median kuch sabit nahi karta. Pehle ginti dekhein, phir number.

Finance & settlements

Driver ki kamai, payout, refund aur commission.

1. Payout purane se naye ki tarteeb mein karein.
2. Refund approve karne se pehle uski booking se milaein.
3. Mukammal trips ka hisab thora thora kar ke barabar karein, ek bare dher mein nahi.

! Refund asli paisa hai jo karobar se bahar ja raha hai. Pehle booking aur wajah dono tasdeeq karein.

! Reconcile, commission rules aur adjustments sirf SuperAdmin chala sakta hai. Admin ya FinanceOfficer ko in par 403 milta hai — button kharab nahi, ijazat nahi.

Legacy payments

Purana payment record — receipts, nakaam transactions aur controlled refund.

1. Purani booking ki tehqeeq ke liye istemal karein. Naya kaam Finance & settlements mein hota hai.
2. Status badalte waqt review notes zaroor likhein — yeh baad mein wahi record hai jo parha jata hai.

TRUST & SAFETY

Jab kuch ghalat ho jaye.

Safety incidents

Dono apps se aane wale SOS alerts aur incidents.

1. Har alert ko asli samjhein jab tak kisi se baat na ho jaye.
2. Pehle customer ko phone karein, phir driver ko.
3. Jo kiya aur jab kiya, likh dein. Baad mein jo bhi review hoga woh yehi log parhega.

! Yeh qatar poore portal mein sab se pehle aati hai.

Complaints & disputes

Trip, fare ya rawaiye par ikhtilaf.

1. Dono taraf ki baat sunne se pehle booking ki status history parhein.
2. Dono se poochein. Ek tarfa faisla doosri shikayat paida karta hai.
3. Natija aise likhein ke agla parhne wala aap se poochhe baghair wajah samajh jaye.

Support tickets

Woh sab jo na incident hai na dispute.

1. Ticket kholne se pehle booking ya user dhoondein.
2. Masla, waqt, screen aur jo pehle azmaya gaya — chaaron likhein.

! Technical error ka matn kabhi customer ya driver ko na parh kar sunayein. Unki zaban mein masla bata kar upar bhejein.

REPORTS

Ginti, hisaab, aur kis ne kya kiya.

Executive operations

Is waqt chalti hui tamam rides aur tours, har das second mein taza.

1. Poore platform ki ek screen par soorat-e-haal dekhne ke liye — bina kisi record ko khole.
2. Tracking ka khana "Stale" dikhaye to us trip ka GPS ruka hua hai; kaam Operations & dispatch par hoga.

Reports & reconciliation

Kisi arse ka total — hisaab ke liye aur faislon ke liye.

1. Pehle arsa chunein; screen ka har number usi ke peeche chalta hai.
2. Arsa badalne se pehle export kar lein, taake jo number aap ne bataye woh dobara nikale ja sakein.

Audit log

Is portal mein kis ne kya kiya.

1. Kisi saathi se poochne se pehle yahan dekhein — jawab aksar yahin hota hai.

SETUP

Woh settings jo ek baar theek kar ke chhor di jati hain.

Services

Kisi service ko customer ke liye band karna, bina driver se chhupaye.

1. Jo service abhi shuru nahi hui usay off kar dein — customer ki app mein uska tile dhundla ho jata hai aur us par aap ka rakha hua badge lagta hai (default "SOON").
2. Apna closed message likhein. Wohi paighaam customer ko tile chhoone par dikhta hai, is liye usay saaf likhein.

! Yeh switch sirf customer app ka darwaza band karta hai. Driver app par koi asar nahi, chalti hui bookings bhi nahi rukteen, aur server khud aisi service ki booking rad nahi karta — is liye isay technical rok na samjhein.

Notifications

Customer ya driver ko bheje jane wale paighamaat.

1. Paighaam likhein, audience chunein, aur bhejne se pehle ek baar aur parhein.

! Notification wapas nahi li ja sakti. Har banday ke phone par pohanch jati hai.

Settings

Portal aur platform ki configuration.

1. Ek waqt mein ek cheez badlein aur asar dekh kar agli badlein.
2. Pricing wali settings ka asar agli quote par aata hai — ek minute ke andar, portal restart kiye baghair.

Map places

Naam wale pickup aur drop points jo customer search kar sakta hai.

1. Wohi jagahein daalein jinka naam log lete hain — bus stand, hospital, mashhoor bazaar.
2. Coordinates map par set karein, type kar ke nahi, taake pin wahan lage jahan gaari ruk sake.

Address search

Woh Google key jo From / To ke autocomplete aur pata dhoondne ke liye chalti hai.

1. Key badalne ke baad save karein aur app mein ek pata type kar ke dekh lein.

! Ghalat ya khatam shuda key se search band nahi hoti — woh chupke se OpenStreetMap par chali jati hai, jo Pakistan ke zyadatar colony, sector aur gali ke naam nahi janta. Natija yeh ke search kharab ho jati hai, band nahi hoti, aur kisi ko shikayat aane tak pata nahi chalta.

Data management

Bohot saare record ek sath badalne wale kaam.

1. Import se pehle export karein. Chalane se pehle parhein ke job kya badlega.

! Yahan ke kaam ek sath bohot se record par lagte hain aur hamesha wapas nahi liye ja sakte.

Diagnostics

API, database aur maps theek chal rahe hain ya nahi.

1. Jab kai screens ek sath kharab lagein to sab se pehle yahan dekhein. Ek cheez kharab hone se kai screens tooti hui lagti hain.

Help / How to use

Yehi guide, poori, shuru se aakhir tak parhne ke liye.

1. Upar Roman / English ka switch hai. Jo zaban chunein ge woh isi browser mein yaad rehti hai.
2. Search dono zabanon mein chalti hai — "refund" likhein ya "wapsi", dono se wohi hissa milega.
3. Yehi guide har screen par upar dayein "Guide" button ke peeche bhi hai, taake kaam chhore baghair dekha ja sake.
